

Office Dispatch No.: PBIP | PPCB | 2024 | 122

Date: 24/01/2024

To

ASHISH MISHRA
FLAT NO 1304 BLOCK C
S.A.S NAGAR, MOHALI - 140603

Subject:- Grant Varied 'Consent to Operate' an Outlet u/s 25/26 of Water (Prevention & Control of Pollution) Act, 1974 for discharge of Effluent.

With reference to your application for obtaining Varied 'Consent to Operate' an outlet for discharge of the effluent u/s 25/26 of Water (Prevention & Control of Pollution) Act, 1974, you are, hereby, authorized to operate an industrial unit for discharge of the effluent(s) arising out of your premises subject to the Terms and Conditions as mentioned in this Certificate.

1. Particulars of Consent to Operate under Water Act, 1974 granted to the Industry:

PIN	230774967
Application No.:	2312819780
Date of Issue:	24-Jan-2024
Date of Expiry:	31-Mar-2025
Certificate Type:	Varied
Certificate No:	CTOW/Varied/PBIP/BTH/2023/2312819780

2. Particulars of the Industry:

Name & Designation of the Applicant:	Ashish Mishra, (Director)
Name of Business Entity	CHANDIGARH DISTILLERS AND BOTTLERS LIMITED
Name of the Project/Unit:	CHANDIGARH DISTILLERS AND BOTTLERS LIMITED
Address of Project/Unit:	CHANDIGARH DISTILLERS AND BOTTLERS LIMITED BANUR , Mohali , S.A.S Nagar
Capital Investment of the Industry(in lakhs):	22150.00
Category of Industry:	Red
Type of Industry:	1060 - Distillery (molasses / grain / yeast based)
Scale of the Industry:	Large - > Rs. 50 Crore
Office District:	SAS Nagar
Consent Fee Details:	Rs. 282500/- vide R. no. 157479445 dated 09.12.2023 under the Water (Prevention & Control of Pollution) Act, 1974 Rs. 282500 /- vide R. no. 379093774 dated 09.12.2023 under the Air (Prevention & Control of Pollution) Act, 1981
Raw Materials (Name with quantity per day):	GRAIN @ 1015 Metric Tonnes/Day

Products (Name with quantity per day):	RS/ENA/Industrial Alcohol/Ethanol @ 480 Kilo Liters/Day (with Ethanol production restricted to 360 KLD) CO-GENERATION @ 8.25 Megawatt CO-GENERATION @ 3.10 Megawatt
By Products, if any (Name with quantity per day) :	Fusel Oil @ 0.0043 Kilo Liters/Day Animal Feed Supplement @ 203.0 T/day Carbon Dioxide @ 345 T/Day
Details of the machinery and processes:	As per application form.
Details of Effluent Treatment Plant:	ETP of capacity 2000 KLD consisting of collection-cum-equalization tank, anaerobic reactor, buffer tank, aeration, clarifier, treated water storage tank, PSF, ACF and softener. Skid-Mounted type STP based on MBBR technology
Mode of disposal of Effluent:	Trade Effluent will be reused in various processes achieving Zero Liquid Discharge and recycled into process after ETP. Domestic Effluent after treatment through STP shall be discharged onto land for plantation.
Standard to be achieved under Water(Prevention & Control of Pollution) Act, 1974:	As prescribed by the CPCB/MoEF&CC/PPCB, from time to time.

Environmental Engineer (PBIP)
for & on behalf of
Chief Environmental Engineer (PBIP)

A copy of the above is forwarded to the following for information and necessary action please:

1. Senior Environmental Engineer, Zonal Office-1, Patiala.
2. Environmental Engineer, Regional Office, SAS Nagar.

sd-

Environmental Engineer (PBIP)
for & on behalf of
Chief Environmental Engineer (PBIP)

A. GENERAL CONDITIONS

1. This consent is not valid for getting power load from the Punjab State Power Corporation Limited or for getting loan from the financial institutions.
2. The industry shall apply for renewal/further extension in validity of consent atleast two months before expiry of the consent.
3. The industry shall ensure that the effluent discharging through the authorized outlet shall confirm to the prescribed standards as applicable from time to time.
4. The industry shall plant minimum of three suitable varieties of trees at the density of not less than 1000 trees per hectare all along the boundary of the industrial premises.
5. The achievement of the adequacy and efficiency of the effluent treatment plant/pollution control devices/recirculation system installed shall be the entire responsibility of the industry.
6. The industry shall ensure that the Hazardous Wastes generated from the premises are handled as per the provisions of the Hazardous Wastes(Management, Handling and Trans boundary Movement) Rules, 2008 as amended time to time , without any adverse effect on the environment, in any manner
7. The responsibility to monitor the effluent discharged from the authorized outlet and to maintain a record of the same rests with the industry. The Board shall only test check the accuracy of these reports for which the industry shall deposit the samples collection and testing fee with the Board as and when required.
8. The industry shall submit balance sheet of every financial year to the concerned Regional Office by 30th June of every year
9. The industry shall submit a yearly certificate to the effect that no addition/up-gradation/modification/modernization has been carried out during the previous year otherwise the industry shall apply for the varied consent.
10. During the period beginning from the date of issuance and the date of expiration of this consent, the applicant shall not discharge floating solids or visible foam.
11. Any amendments/revisions made by the Board in the tolerance limits for discharges shall be applicable to the industry from the date of such amendments/revisions
12. The industry shall not change or alter the manufacturing process(es) so as to change the quality and/or quantity of the effluents generated without the written permission of the Board.
13. Any upset conditions in the plant/plants of the factory, which is likely to result in increased effluent and/or result in violation of the standards lay down by the Board shall be reported to the Environmental Engineer,Punjab Pollution Control Board of concerned Regional Office immediately failing which any stoppage and upset conditions that come to the notice of the Board/its officers, will be deemed to be intentional violation of the conditions of consent.
14. The industry shall provide terminal manhole(s) at the end of each collection system and a manhole upstream of final outlet (s) out of the premises of the industry for measurement of flow and for taking Samples.
15. The industry shall for the purpose of measuring and recording the quantity of water consumed and effluent discharged, affix meters of such standards and at such places as approved by the Environmental Engineer,Punjab Pollution Control Board of the concerned Regional Office.
16. The industry shall maintain record regarding the operation of effluent treatment plant i.e. record of quantity of chemicals and energy utilized for treatment and sludge generated from treatment so as to satisfy the Board regarding regular and proper operation of pollution control equipment.

17. The industry shall provide online monitoring equipment for the parameters as decided by concerned Regional Office with the effluent treatment plant/air pollution control devices installed, if applicable.
18. The pollution control devices shall be interlocked with the manufacturing process of the industry.
19. The authorized outlet and mode of disposal shall not be changed without the prior written permission of the Board
20. The industry shall comply with the conditions imposed by the SEIAA / MOEF in the environmental clearance granted to it as required under EIA notification dated 14/9/06, if applicable.
21. The industry shall obtain and submit Insurance cover as required under the Public Liability Insurance Act, 1991
22. The industry shall not use any unauthorized out-let(s) for discharging effluents from its premises. All unauthorized outlets, if any, shall be connected to the authorized outlet within one month from the date of issue of this consent.
23. The industry shall make necessary arrangements for the monitoring of effluent being discharged by the industry and shall monitor its effluents:-
 - (i) Once in Year for Small Scale Industries
 - (ii) Four in a Year for Large/Medium Scale Industries
 - (iii) The industry will submit monthly reading/ data of the separate energy meter installed for running of effluent treatment plant/re-circulation system to the concerned Regional Office of the Board by the 5th of the following month
24. The industry shall provide electromagnetic flow meters at the source of water supply, at inlet/outlet of effluent treatment plant within one month and shall maintain the record of the daily reading and submit the same to the concerned Regional Office by the 5th of the following month.
25. The Board reserves the right to revoke this consent at any time in case the industry is found violating any of the conditions of this consent and/or the provisions of Water (Prevention & Control of Pollution) Act, 1974 as amended from time to time.
26. The issuance of this consent does not convey any property right in either real or personal property, or any exclusive privileges, nor does it authorize any injury to private property or any invasion of personal rights, nor any infringement of Central, State or Local Laws or Regulations.
27. The consent does not authorize or approve the construction of any physical structures or facilities for undertaking of any work in any natural watercourse
28. Nothing in this consent shall be deemed to neither preclude the institution of any legal action nor relieve the applicant from any responsibilities, liabilities or penalties to which the applicant is or may be subjected under this or any other Act.
29. The industry shall make necessary and adequate arrangements to hold back the effluent in case of failure of septic tank.
30. The diversion or bye pass of any discharge from facilities utilized by the applicant to maintain compliance with the terms and conditions of this consent is prohibited except.
 - (i) Where unavoidable to prevent loss of life or some property damage or
 - (ii) Where excessive storm drainage or run off would damage facilities necessary for compliance with terms and conditions of this consent. The applicant shall immediately notify the consent issuing authority in writing of each such diversion or bye-pass.
31. The industry shall ensure that no water pollution problem is created in the area due to discharge of effluents from its industrial premises

32. The industry shall comply with the code of practice as notified by the Government/ Board for the type of industries where the siting guidelines/ code of practice have been notified
33. Solids, sludge, filter backwash or other pollutant removed from or resulting from treatment or control of waste waters shall be disposed off in such a manner to prevent any pollutants from such materials from entering into natural water.
34. The industry shall re-circulate the entire cooling water and shall also re-circulate/reuse to the maximum extent the treated effluent in processes
35. The industry shall make necessary and adequate arrangements to hold back the effluent in case of failure of re-circulation system/ effluent treatment plant.
36. The industry shall make proper disposal of the effluent so as to ensure that no stagnation occurs inside and outside the industrial premises during rainy season and no demand period
37. Where excessive storm water drainage or run off, would damage facilities necessary for compliance with terms and conditions of this consent, the applicant shall immediately notify the consent issuing authority in writing of each such diversion or bye-pass.
38. The industry shall submit a detailed plan showing therein the distribution system for conveying waste-water for application on land for irrigation along with the crop pattern for the year.
39. The industry shall ensure that the effluent discharged by it is toxicity free
40. The industry shall not irrigate the vegetable crops with the treated effluents which are used/ consumed as raw.
41. Drains causing oil & grease contamination shall will be segregated. Oil & grease trap shall be provided to recover oil & grease from the effluent.
42. The industry shall establish sufficient number of piezometer wells in consultation with the concerned Regional Office, of the Board to monitor the impact on the Ground Water Quantity due to the industrial operations, and the monitoring shall be submitted to the Environmental Engineer of the concerned Regional Office by the 5th of every month.
43. The industry shall ensure that its production capacity & quantity of trade effluent do not exceed the quantity mentioned in the consent and shall not carry out any expansion without the prior permission/NOC of the Board.

Environmental Engineer (PBIP)
for & on behalf of
Chief Environmental Engineer (PBIP)

B. SPECIAL CONDITIONS

1. This consent is only valid for production of RS/ENA/Industrial Alcohol @ 480 Kilo Liters/Day (With Ethanol Production restricted to 360 KLD) and operation of Co-generation Plants of capacities 8.25 Megawatt & 3.1 Megawatt, within existing premises.
2. This consent to operate is being issued to the project proponent in supersession to the earlier granted consent to operate under the Water (Prevention & Control of Pollution) Act, 1974 vide no. CTOW/Renewal/SAS/2023/21221879 dated 30/03/2023, having validity upto 29.03.2024.
3. The unit shall get a comprehensive a study carried out from an institute of Repute (other than the previous IoR, i.e. SAI Lab) to assess the impact on the ground water quality as well as soil due to its activities as well as to assess the long term feasibility/possibility of direct reuse of MEE condensate as makeup in the cooling towers and its consequence on the operating of the plant as well as the environment by 30.06.2024 so as to prevent any detrimental effect in the vicinity of the site in future. Further, if suggested by the IoR to primarily treat the MEE condensate through the CPU before reuse in the cooling towers. Then, the unit shall submit proposal for upgradation of existing CPU to cater to the MEE condensate from 450 KLD & 660 KLD plants, to the Board by 30.09.2024.
4. The industry shall only manufacture the products and limit their quantities, for which it has been granted consent to operate from the Board. It shall not manufacture any other product without the prior written permission of the Board/ Competent Authority. Further, the industry shall stick to the production capacity mentioned in this consent letter w.r.t the production capacity of Alcohol as well as Ethanol.
5. The industry shall not carry out any further expansion or modifications in the plant, without obtaining prior written permission from the Board and/ or revised Environment Clearance from the Competent Authority.
6. The industry shall comply with all terms & conditions mentioned in the Environmental Clearance granted to it by MoEF&CC, New Delhi vide no. J-11011/454/2011-IA II (I) dated 31/07/2023, with utmost sincerity and commitment, ensuring compliance in both letter and spirit.
7. The industry will make proposal for utilizing the funds reserved for CER activities in consultation with the Board and shall utilize the same accordingly within the stipulated time frame.
8. The industry shall obtain site clearance u/s 41 (A) of the Factories Act, 1948 from the competent authority before carrying out any activity/ construction regarding the expansion project for which it has already obtained CTE, if applicable.
9. The industry shall maintain proper record of consumption of fresh water, generation of trade effluent and disposal of treated wastewater, at all times.
10. The project proponent shall not discharge any effluent at any unauthorized place by any unauthorized means i.e. shall not discharge any wastewater in any drain / inland surface waters / drain/choe/nallah/ onto land for stagnation or outside its premises, at any time, under any circumstances.
11. The industry shall be bound to operate its plant & machinery as per the Zero Liquid Discharge mechanism, in compliance to MoEF&CC notification dated 16/06/2021 and will not discharge any trade effluent under any circumstances.
12. The industry will not exceed the generation of trade effluent of more than proposal submitted by it. Further, the industry shall immediately provide flow meter on the line(s) carrying treated/ Untreated effluent within its premises (such as such as spent lees and spent wash and the pipeline used for recirculation of treated wastewater, spent wash recycle and scrubber water) and maintain proper record regarding the readings of the same, at all times.
13. The industry shall regularly operate & maintain its effluent treatment plant and the treated effluent shall be reused in the process/ utilities in accordance with the Environment Clearance issued to it.
14. The industry shall develop adequate plantation area as well as permanent pipeline network for uniform distribution of wastewater in the entire plantation area (after treatment from STP), so that no stagnation of wastewater occurs inside, outside or in the plantation area at any time.
15. The industry shall adopt water conservation methods to reduce consumption of fresh water in process and in turn minimize the wastewater generation.

/river or inland surface water at any time or any other unauthorized place by any unauthorized means and shall reuse the treated effluent in the process in accordance with the water balance submitted by it. Further, the industry shall stick to the water balance submitted by it.

17. The industry shall ensure that due to operation of the unit at the site, no nuisance for general public is created at any time and no public complaints are received.

18. The adequacy/ efficacy of the pollution control arrangements shall be the sole responsibility of the industry and the industry shall be bound to implement/ upgrade its pollution control arrangements as per the discretion of the Board to achieve the prescribed emission/ effluent standards, as amended from time to time.

19. The industry shall comply with the provisions of Solid Waste Management Rules, 2016.

20. The industry shall obtain the authorization under the Hazardous and Other Wastes (Management and Transboundary Movement) Rules, 2016.

21. The establishment shall obtain all the statutory approvals/clearances from the concerned departments.

22. The project proponent shall make use of alternatives of single use plastics (SUP) within its premises and will not use any SUP items banned in accordance with MoEF&CC notification no. G.S.R. 571(E) dated 12.08.2021.

23. The Punjab Pollution Control Board shall have the liberty to revoke this consent & take penal action against the industry/project proponent and its responsible/ concerned person(s), in case any information/document provided by the industry/ project proponent is found to be incorrect/false/misleading at any point of time.

24. In case the project proponent fails to comply with the provisions of the Water (Prevention & Control of Pollution) Act, 1974, Air (Prevention & Control of Pollution) Act, 1981, Environment (Protection) Act, 1986 and/or any other environmental law applicable to the project and Rules, Circulars & Directions issued by the Board from time to time, action as deemed fit shall be taken against the project proponent.

25. The Punjab Pollution Control Board shall not be responsible for any financial liability and/ or any other liability of the project proponent, due to grant of this Consent to Operate.
